

Microbes, diseases, and drugs	Vocabulary and concepts
HIV	Koplik's spots
Measles virus	Conjunctivitis
Rubella virus	Coryza
Mumps virus	MMR vaccine
Rabies virus	Nucleoside analogs
Poliovirus	Competitive enzyme inhibitors
<i>Treponema pallidum</i>	Reverse transcriptase
<i>Neisseria gonorrhoeae</i>	Non-nucleoside reverse transcription inhibitors (NNRTIs)
<i>Chlamydia trachomatis</i>	Interferons
Human papillomavirus (HPV)	Live attenuated vaccines
<i>Candida albicans</i>	Inactivated "killed" vaccines
<i>Gardnerella vaginalis</i>	Subunit vaccines
<i>Trichomonas vaginalis</i>	Immune system
<i>Entamoeba</i>	Nonspecific (innate) immune system
<i>Balantidium</i>	Specific (adaptive) immune system
<i>Giardia</i>	Leukocytes
<i>Cryptosporidium</i>	Inflammation (rubor, turgor, dolor, calor)
<i>Trypanosoma</i>	Lysozyme
<i>Toxoplasma gondii</i>	Lipocalin
<i>Plasmodium</i>	Histatin
AIDS	T cells ( $T_H$ , $T_C$ , $T_{REG}$ )
Kaposi's sarcoma	B cells
HSV-8	Plasma cells
Measles	Antibodies and antigens
Rubella/German measles	CD4
Mumps	Neutralization, opsonization, and complement activation
Polio/poliomyelitis	Central tolerance
Rheumatoid arthritis	Encephalitis
Type I diabetes	Urethritis
Lupus	Dysuria
Multiple sclerosis	Purulent discharge
Atopic allergy	Maculopapular rash
Allergic rhinitis	Chancre
Anaphylactic allergy	Gummas
Anaphylactic shock	Prostitute's eye
Contact dermatitis	Argyll-Robertson's pupil
Syphilis (primary, secondary, and tertiary)	Neurosyphilis
Gonorrhea	PID (pelvic inflammatory disease)
Chlamydia	Ectopic pregnancy
Genital herpes	Cervicitis
Cervical cancer	Salpingitis
Genital warts	Infertility
Vaginitis/vaginosis	Ophthalmia
	Pharyngitis

Bacterial vaginosis (BV)	Proctitis
Chagas disease	Meningitis
Sleeping sickness	Arthritis
Toxoplasmosis	Endocarditis
Malaria	Vesicular lesions
AZT (Azidothymidine) "Retrovir"	Dysentery
Acyclovir "Zovirax"	Severe dehydration
Valacyclovir "Valtrex"	Fontanelle
Ribavirin "Copegus"	Capillary refill
Oseltamivir "Tamiflu"	Skin turgor
Pegylated interferon $\alpha$ -2a "Pegasys"	Hypotension
Antihistamines	Tachycardia
Epinephrine "Epi-pen"	Tachypnea
Miconazole "Monistat"	Fecal-oral route
Metronidazole "Flagyl"	Oral rehydration therapy (ORT)
Pyrimethamine "Daraprim"	Romañas eye
Chloroquine "Aralen"	Winterbottom's sign
Mefloquine "Lariam"	Kissing bug
"Malarone"	Tsetse fly
	<i>Anopheles</i> mosquito
	Anemia
	Renal failure
	jaundice
