

P.U.R.E. SYMPOSIUM @ FMU

Tuesday, April 15
LSF 102

Refreshments: 3:30 pm
Presentations: 3:45 - 4:45 pm

PROGRAM FOR
UNDERGRADUATE
RESearch
ExPERIENCE

Isolation of Lectin cDNA from Green Bean Pods

Shaquanna Brockington

Faculty mentor: Vernon Bauer

An Investigation of Cadmium Effects on Mitochondria Isolated from Mouse Brain

Alyssa K. Polson

Faculty mentors: Kirk Dineley and Latha Malaiyandi

The Green Roof Project

Yeolonda Snipes, Shane Parker, Robert Branton, and Jessica Burroughs

Faculty mentor: Lisa Pike

Fluorescence Detection of MAO Activity in Mitochondria Isolated from Mouse Brain and Liver

Philip J. Vernon

Faculty mentors: Latha Malaiyandi and Kirk Dineley

Ecology of Diamondback Terrapins

Paige Weaver

Faculty mentor: Peter King

Post-Translational Modifications of CCAAT/Enhancer Binding Protein-Beta: Implications for Regulation of the p53 Promoter

Kate Watson

Faculty mentor: Erin Eaton

* P.U.R.E. is organized through the Department of Biology at Francis Marion University
