Regulation of body temperature

**Stimulus = High body Temp**

---

**Sensors** = _________________

**Integrating center** = _________________

**Effectors (muscle or gland cells)** = _________________

**What do these cells do?**

**End Effect** = _________________

* (What happens to body temp?)

---

**Stimulus = Low Body Temp**

---

**Sensors** = _________________

**Integrating center** = _________________

**Effectors (muscle or gland cells)** = _________________

**What do these cells do?**

**End Effect** = _________________

* (What happens to body temp?)
